

DECLARATION OF CONFORMITY

Dear customer,

Further to the acquisition of Danfysik ACP A/S by LEM, giving birth to LEM Danfysik A/S, LEM Danfysik A/S hereby certifies that the below-mentioned LEM Danfysik A/S devices are strictly equivalent to the associated mentioned former Danfysik ACP A/S references and comply in all respects with their contractual specifications.

The performances of each LEM Danfysik's reference are strictly similar to the performances of the associated equivalent Danfysik's former part number, as nothing changed except part number, labels and colour from red to blue (progressively during the coming months).

All the LEM Danfysik references also undergo the usual controls during their manufacturing as before.

LEM Danfysik's reference	Equivalent to Danfysik's former reference	Danfysik's former part number	
IT 60-S ULTRASTAB	Ultrastab 867-60I	8100089453	Onboard electronics current transducers
