

Aprile 2014

[SENIS AG](#) provides magnetic field measurement instruments, current sensors and corresponding services:

- Broad range of [Analog Magnetic Transducers](#) and [Digital Teslameters](#) with the smallest 3-axis Hall probes, very low noise and high frequency bandwidth
- [Magnetic Field Scanners](#) for testing permanent and electro-magnets
- Miniature, high sensitivity [current sensors](#)
- Clamp-on DC [MicroAmmeter](#)
- [Insulation Defect Locator](#)
- Related consultancy and [engineering services](#), such as [calibration & characterization of magnetic and current measurement instruments](#)

SENIS Conference Schedule

SENIS is delighted to invite you to the following conferences:

INTERMAG, 04 - 08 May 2014, Dresden/Germany

We are looking forward to welcome you at our booth no. 16 and to our technical presentation:

"Testing the homogeneity of magnets for rotary position sensors" on May 7th

SENSOR+TEST, 03 - 05 June 2014, Nürnberg/Germany

We are looking forward to welcome you at our booth no. 12-352, Hall 12

CWIEME, 24 - 26 June 2014, Berlin/Germany

We are looking forward to welcome you at our booth no. D66, Hall 11

for more information see our conference schedule on [Senis Website](#).
